PROFILE

Goal-oriented and proactive QA Analyst and Web Developer with 10+ years of experience in bug troubleshooting and product support, dedicated to optimizing efficiency, usability, and delivering high-quality results. Proficient in various web development technologies, including HTML, CSS, JavaScript, React.js, Node.js, MongoDB, and Git. Excel in agile problem-solving and the full product development lifecycle, crafting engaging, accessible applications that shape the future of web and mobile technologies.

PROJECTS

Chat Mobile App   **Link to code**

- This app provides users with a chat interface where they can exchange messages, share images, send their location, and access existing messages offline. It works on both iOS and Android devices and utilizes React Native, Firebase, GiftedChat, and more.

Recipe App   **Link to code**

- The Recipe App is a fully-functional web application designed to simplify the process of finding, creating, and sharing recipes. Built using Django, a powerful Python web framework, this application showcases a variety of features including user authentication, recipe management, and pagination.

WORK EXPERIENCE

Arbiter Sports   **2023 - Present**
Quality Assurance and Bug Testing

- Advocated for customers within the organization, communicated their needs and feedback to the product development team, and ensured that products were designed to meet those needs.
- Collaborated closely with cross-functional teams, including developers, quality assurance, and product management, to prioritize and communicate the status of bugs, expediting issue resolution and promoting efficient software development.Implemented and maintained a structured bug tracking and documentation system, resulting in improved bug reporting efficiency and enhanced communication among team members.

Arbiter Sports   **2022 - 2023**
Product Support Specialist

- Assisted existing customers by explaining features, clarifying operating instructions, and providing troubleshooting tips.
- Monitored brand consistency across marketing channels and materials. Worked with other departments and product teams to assess, initiate, refine, and drive appropriate functional solutions.
- Implemented and maintained a structured bug tracking and documentation system, resulting in improved bug reporting efficiency and enhanced communication among team members.
